

EUROMIX 60 DATA SHEET

eastern | concrete ltd
concrete solutions

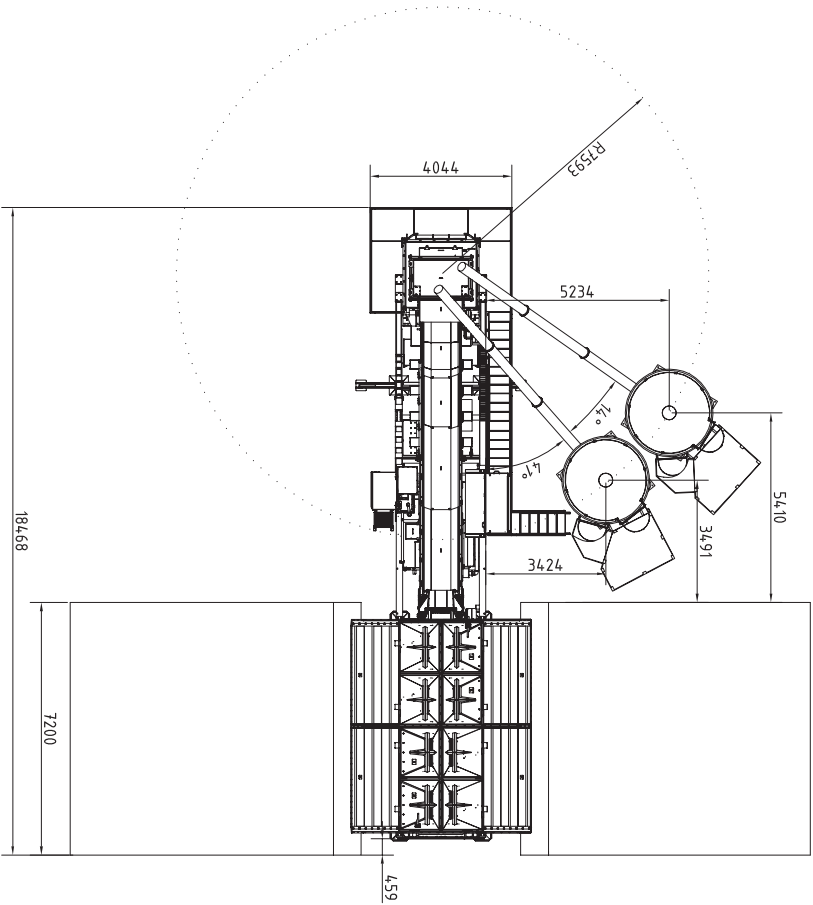

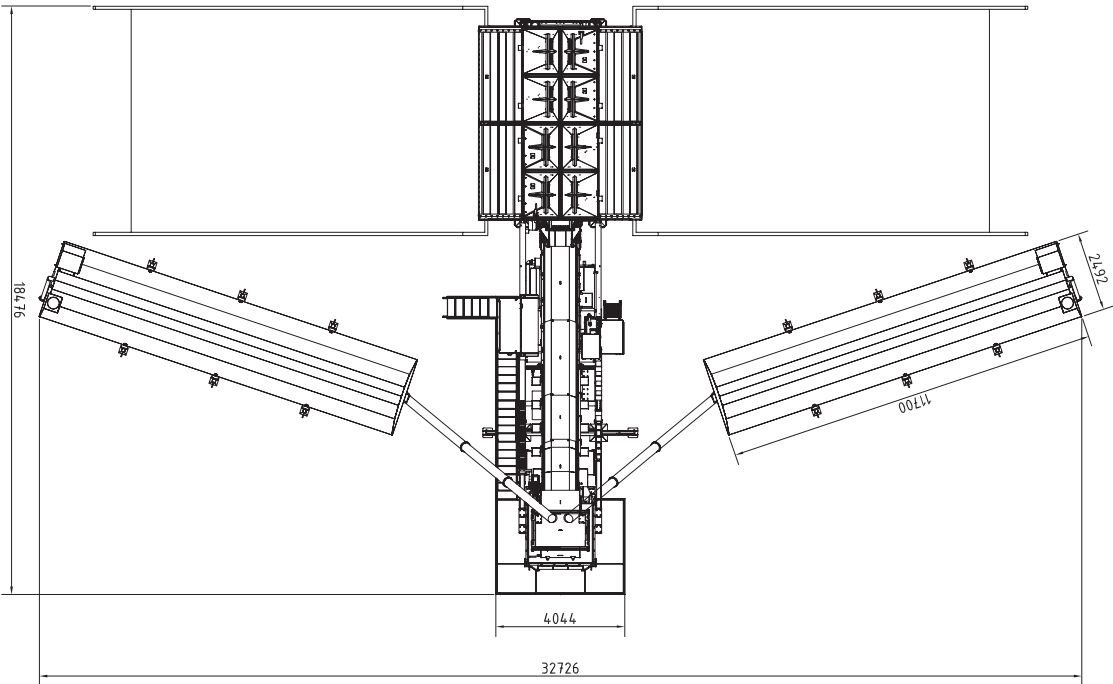

TECHNICAL DATA

Theoretical output	ca. 60 m³/h
Output of compacted concrete of mixer/batch	ca. 1,25 m³
Total content of aggregates in linear silo	4 × 12 m³
Filling capacity of aggregate scales	ca. 4 m³
Filling capacity of cement scales	ca. 0,75 m³
Filling capacity of water scales	ca. 0,4 m³
Filling capacity of additive scales (optional two chamber scale)	5 l / 15 l
Overall capacity of integrated water reservoir (optional)	ca. 2 m³
Total area required (L×W) including ramp	ca. 18 m × 14 m
Total work height	ca. 8,00 m
Concrete discharge height	ca. 4,10 m
Transport measures plant (L×W×H)	ca. 14 m × 2,55 m × 4,00 m
Transport weight per unit	max 32.000 kg
Maximum number of cement silos	4
Operating voltage	400 V 50Hz
Control voltage	24 V DC
Required connection value of basic machine	100 kW
